## PRESS RELEASE

### *Public Safety Advisory – Access to Great Hollow Beach Unavailable for ~90 Days*

**FOR IMMEDIATE RELEASE:** October 6, 2025 – Due to storm events and sea level rise, the Great Hollow Beach stairway has been degrading over the last few years and repairing it is no longer feasible. Construction of the new stairs and dune restoration at Great Hollow Beach will begin on October 7, 2025 and last approximately 90 days.

Public access to the beach and the north side of the parking lot where the stairs are located will be unavailable. The south side of the parking lot and the benches at the end of the parking lot will remain open to the public. Please note, equipment will be staged in the Great Hollow Beach parking lot during the construction period.

The Town of Truro will provide periodic updates to the public as they are available.
