CAC CURRENT ACTIONS

Cape Light Compact Energy Audit for Businesses

- One-on-one outreach to business owners
- Worked with Truro Chamber of Commerce to promote the audit
- Worked with CLC supporting their Main Streets program scheduled for June 15th and 16th
- Developed a handout for the Building Department with information about reducing energy efficient building costs
- Developed a mailing to business owners

CAC CURRENT ACTIONS, *continued*

Greenhouse Gas Inventory

To be published on the CAC website

CAC CURRENT ACTIONS, *continued*

Climate Informational Articles

- Reduce, Reuse, Recycle
- Passive House
- Home Improvements

To be published on the CAC website

CAC CURRENT ACTIONS, *continued*

Conservation

- Developing guideline with Planning Board to address clear cutting of building lots
- Supporting Truro Conservation Trust's High Head area conservation land project

CAC CURRENT ACTIONS, *continued*

Develop Community-Wide Action Plan

- Gather input from Truro homeowners and businesses, planned for July 31, August 28, and September 25
- Gather input from relevant boards and committees
- Gather input from town managers
- Gather input from Select Board
- Develop plan
- Review with Town Manager and Select Board
- Present to Truro

WHAT DO WE NEED.....

- Timely review/feedback/approval for documents (mailing to businesses, sign CLC agreement for Main Street program)
- Input to Climate Action Plan from Select Board, Town Hall, and Truro residents
- Volunteers and committee members

Addressing climate change in Truro means changing our behavior at home, in our businesses, in our government, and in our municipal buildings.
