# PROPERTY TYPE CLASSIFICATION CODES Non-arm's Length Codes and Sales Report Spreadsheet Specifications

# Prepared by the Bureau of Local Assessment Revised April 2019

CHANGES

- New Code: Code 434 for Telecommunication Data Centers
- Edits: Use Codes 114, 431, 717, 911,921

INTRODUCTION

These Guidelines are intended to assist the Board of Assessors in determining the proper classification of property according to its use.

The coding structure has three digit level of detail. The first digit indicates a major classification. The second digit is a major division and the third digit is a subdivision, both within the major classification of property.

If the guidelines do not include a three digit code for a specific property use, the assessor should use the code that most appropriately identifies the property's use.

## MULTIPLE-USE PROPERTY

## CODE 0

Real property used or held for use for more than one purpose, including parcels with multiple detached or attached buildings, are considered multiple-use property for classification purposes. Any necessary related land on a multiple-use property must be allocated among the classes of property within the building.

The first digit of multiple-use property is always a zero (0). The second and third digits are the major classification of the property represented. The digits following zero (0) are listed in the order of major importance.

#### Examples

Since the guidelines for coding multiple-use property are unique, several specific examples of how to identify such property with these codes are listed here. These are only examples and do not represent all possible multiple use codes. Note: The mixed use code is **limited to** <u>three digits</u> and can only describe two classes of property.

013 Multiple-Use, primarily Residential

A building with a retail store on the first floor, apartments on the upper floors, and a major portion of the related land is reserved for tenant parking.

031 Multiple-Use, primarily Commercial

A building with retail use on the first floor, office space on the second and third floors, apartments on the fourth floor and a major portion of the related land is allocated for commercial use.

037 Multiple-Use, primarily Commercial with part of land designated under Chapter 61A use

A farm property with land and buildings predominantly used for commercial farming with part of land (at least 5 acres) designated horticulture/agricultural under Chapter 61A.

021 Multiple-Use, primarily Open Space

A single-family house with substantial acreage designated open space by the assessors.

# PROPERTY SALES REPORT INSTRUCTIONS

The Property Sales Reports (LA-3) are used in conducting assessment/sales ratio studies. In order to conduct an accurate study, the following information needs to be completed on all sales over \$1,000. The Board of Assessors must sign, date and submit the LA-3 via DLS Gateway. See *Property Sales Report Spreadsheet Specifications* on page 12 for submission requirement standards.

#### NON-ARM'S LENGTH CODES

An "arm's length" sale is a sale between a willing buyer and a willing seller with no unusual circumstances involved in the sale. Listed below are the codes for sales that are considered non-arm's length.

- A. Sale between members of the same family
- B. An intra-corporation sale, e.g. between a corporation and its stockholder, subsidiary, affiliate or another corporation whose stock is in the same ownership
- C. Sale of any real property which includes personal property, machinery, equipment, inventories or "good will".
- D. As of FY17, use of code "D" was substituted with "O" In prior years: Sale of property substantially changed <u>before</u> the sale occurred but after the assessment date, i.e. sale price includes change, whereas assessed value does <u>not</u>.
- E. Sale to / from a federal, state, or local government
- F. Transfer of convenience, e.g., correcting defects in a title, a transfer by a husband either through a third party or himself and his wife to create a tenancy by the entirety, etc.
- G. Sale of only a portion of the assessed unit, e.g., a parcel sold from a larger tract and the assessment is for the larger tract, or a portion is in another municipality
- H. Sale resulting from a court order, e.g., a divorce settlement, estate sale
- I. Sale in proceedings of bankruptcy
- J. Sale of an undivided interest
- K. Sale to / from an educational, charitable, or religious organization

- L. Repossession or Sale of a foreclosed property by a financial institution or lender.
- M. Sale of property, the value of which has been materially influenced by zoning changes not reflected in current assessments
- N. Other, when a non-arm's length sale does not fall into any other category, this code is used, accompanied by a written explanation and/or comparable sales analysis.
- O. Sale of property where a <u>substantial</u> physical change has occurred. Specifically, the <u>sale price</u> and <u>proposed value</u> do not represent a property with the same physical characteristics. *i.e. sale price does <u>not</u> include change, whereas the assessed value does*
- P. Sale of property with a change in use when compared to its use on the assessment date.
- Q. Sale of property which includes both a trade of property and cash for the property conveyed
- R. Sale of property which has been sold more than once in the same analysis period. Only the most recent valid sale closest to the assessment date is used for analysis purposes. See page 17 for examples.
- S. As of FY 2017, use of code "S" can be substituted with an "L". In prior years, was sale of a foreclosed property by a financial institution or other lender. (If considered arm's length, must be supported by detailed documentation.)
- T. Property sold to an abutter
- U. Private sale not put on the market
- V. Sale of multiple parcels
- W. Sale affected by deed restriction, e.g., 40B housing
- X. Discontinued as of FY17

## **GATEWAY Version 3 - PROPERTY SALES REPORT - LA3**

There is one unified sales LA3 file template for both Interim and Certification years.

- Gateway will run the validations, eliminating the need to copy data into a clean-up template then into the Upload screen
- Note: Excel file must be in .xlsx format.

If using a time adjustment for any or all classes, entire column may be filled. (Use actual selling price for those sales not time adjusted.) If a community is not using a time-adjustment, column can be left blank.

Note: In the example above, the original sale of \$225,000 is arms length since a vacant piece of land (class 130) sold and the prior FY assessed value reflects this (\$220,000). However, the same sale, when compared to the current FY assessed value of a single family home (\$475,000), becomes a non-arms length sale with the NAL code of "P". The usage class changes from a 130 to a 101.

# **Data Upload Directions**

## First Step: Bulk Upload

- 1. Once the LA3 Sales Report has the updated headings, in Gateway, click on the LA3 tab > LA3 Upload Program > Bulk Upload screen.
- 2. For your jurisdiction, select the fiscal year and the process **will default** to either be Certification or Interim Year. *Note: Gateway automatically selects whether the community is in their Interim or Certification year for the selected fiscal year*.
- 3. Click on Date Range for sales being submitted and click on box if Sales Data Time Trended.

#### Click on Choose File.

Select your LA3 Sales file from your computer drive and click on Save Uploaded File.

#### Once LA3 Sales upload is saved, statistics will be processed.

After saving the file, you will see the following message:

• About every 30 seconds, the Upload Service checks for new files. When it sees one or more new files it will begin processing each file in the order in which it arrived in the pen. This happens very rapidly for most size files, but users can either wait on the upload screen or go about their business and in all cases the system **will send an email to the user initiating the upload** when the upload completes. Ensure your email is correct in the Gateway directory.

When **processed**, the system will show the number of correctly formatted records and any *incorrect records*. If the file has errors, correct the data and select **Reprocess Incorrect Data** at the bottom of the screen.

## System Messages

Messages have been broken into 3 major classes: 2 Errors ,2 Warnings ,2 Information Users will see an icon specific to each type along with the text, for easy identification.

Error:
TaxRate Recap Page 1 Part Ia Total amount to be raised is zero OR Part Ib Total estimated receipts and other revenue sources is zero OR Part Ic Tax levy is zero
Warning:
Commercial Class values changed more than 25% and \$200,000
Information:
1 Data saved

*Errors* must be fixed for a process to continue. *Warnings* may require action like a DLS override or may just be a warning. *Information* doesn't require any action; it's just information. Note: Messages always appear at the top of the screen and are listed in order of importance: errors always appear first, followed by warnings and then by informational messages.

## **Single Record Upload**

While in Gateway at the LA3 tab, go to the **Single Record Upload** screen and select your jurisdiction. Correctly identify the Fiscal year and the Process (Certification or Interim Year Adjustment) will default. Enter the data in the correct format as listed in the LA3 Spreadsheet Specifications. If a field format is incorrect, the system will prompt *Data formats are not valid* in the highlighted field(s). Please correct. Click the Save button to add the record for that community, process, and fiscal year. Click Add New to add an additional record, as opposed to overwriting the information on the screen and clicking Save. The latter action will simply overwrite one record's information with different information.

Two pre programmed sorts are available on the "LA3 Search/Update/Delete" screen. These sorts are usefull in checking the Valid and Nonvalid (NAL) codes prior to submission of the LA-3. Internally the BLA has been using these sorts, via the "Macros", for checking LA-3 submissions during the last 10 years.

## **Repeat Sales Sort**

<u>The first new sort group</u> is "**Repeat Sales Only**"– multiple sales of the same property during the time period under review. This is the situation when the use of the "R" code may come into play.

#### **Repeat Sales: What to look for.**

It is important here to realize why any of the multiple sales of the same property should be coded out with an NAL code.

- 1. First, the sale may not be valid for any of a number or reasons (use the appropriate NAL code).
- 2. Second, there may be two or more valid sales and only one valid sale for each property may be used during the time period of the sales analysis <sup>1</sup>

Review:

- If both sales are *valid*, then the <u>older sale</u> needs to be coded out. Mark the older sale, in this instance, with the NAL code "R" if it is valid.
- If the most recent sale *is not valid*, then the older sales <u>should not</u> be coded "R" if it otherwise would be valid.

"(R) Sale of property which has been sold more than once in the same analysis period. Only the most recent valid sale closest to the assessment date is used for analysis purposes." – From Property Sales Report

NOTE: If you wish to do another search you must click on "Clear Search Criteria" before starting another search.

<sup>&</sup>lt;sup>1</sup> Time period of the sales submitted on the LA-3. Some classes require one year of sales while others require two years of sales. If there is one year of required/submitted sales for a class then the period of analysis is one year for that class. Likewise, if a class requires two years, it has a two year analysis period.

## **Duplicate Names Sort**

<u>The second new sort group</u> is "**Duplicate Names Only**" which separates out potential Buyers and Sellers with the same last name and where the sale has NOT been coded out.

#### To use this sort:

Go to the "LA-3" Tab Select "Search/Update/Delete" from the "LA-3 Upload program" section Select the Fiscal Year Hit "Go" Click on the box after "Duplicate Names Only" Hit "Search"

This will produce a listing of potentially related Buyers and Sellers:

While this sort narrows down the possibilities by looking at *potentially similar last names or business names*, the reviewer is on their own here because the match is not exact. There may be instances of the first several characters being the same but the entire last name is not the same. Whether or not a change is warranted will be in the hands of the reviewer.

The following are examples of results that probably do not show a connection between the Buyer and Seller and therefore should be ignored.

## **Review Statistics Summary**

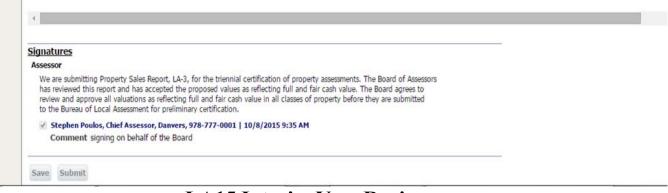

When the LA3 data is uploaded into Gateway, the statistical results of the sales data is automatically calculated and displayed on either the LA15 for Interim Year Adjustment sales, or Final Statistics Approval for Certification sales. Assessors should review these results for program compliance before submitting the LA3.

## Sign and Submit

To complete the submission of the LA3, go to the **Sign and Submit LA3** Data screen, on the menu. In Release 3 all signatures are now in a dedicated section that uses pop-ups instead of blank lines. You'll only see one checkbox per official. Simply click the signature checkbox to sign a form; a pop-up box will appear and comments can be entered if needed. When one signature is added, a new checkbox will appear if additional signatures are allowed. When you are ready to formally submit the file and lock the file from further local changes, click **Submit**.

## LA15 Interim Year Review

**The LA15 is located in the LA3 Tab in Gateway.** To <u>complete</u> the submission process for the Interim Year Adjustment program, you <u>must</u> complete the **LA15** form. The Parcel Counts for the LA15 will be auto filled from prior year's LA4. Statistics will display.

After reviewing the resulting sales statistics for compliance with program requirements, and answering the questions pertaining to the C & I updates, if ready for formal submission, the majority of the Board

of Assessors (or its authorized designee) **should save and sign and submit the form** at the bottom of the screen.

Note: Reviewing C&I adjustments, "No" is the default (no adjustments.) When you click Yes, all the boxes become active.
