

## **TRURO and WELLFLEET MVP WORKSHOP 2019**

On behalf of the Towns of Truro and Wellfleet you are personally invited to join us at a Community Resilience building workshop focused on preparing and protecting Truro and Wellfleet from natural and climate-related hazards now, and in the future.

The Massachusetts Executive Office of Energy and Environmental Affairs

### **Municipal Vulnerability Preparedness (MVP) Program Workshop**

**Tuesday, March 12, 2019**

**8:00 am- 4:00 pm**

Wellfleet Preservation Hall, 335 Main Street

Wellfleet and Truro are working together with the Cape Cod Commission, to offer this timely workshop that will build on our Hazard Mitigation Plan and describe clear actions to advance our adaptation planning. Together we will:

- define natural and climate related hazards, and the connection with local planning/mitigation efforts;
- identify existing and future vulnerabilities and strengths;
- develop a prioritized action plan for our community, and
- identify opportunities to advance actions to reduce risks and build resilience.

Once the workshop is complete, our communities will be eligible for MVP Action Grants that advance climate adaptation actions to address climate change impacts resulting from extreme weather, sea level rise, inland and coastal flooding, severe heat and/ or other related climate impacts.

Please visit our web site at: <https://www.truro-ma.gov/municipal-vulnerability-preparedness-0> to participate in our brief survey and register for the event.
