Dave Crocker made a motion to accept the proposed fees, Eric Morea seconded, approved unanimously.

There was discussion of dredging. Currently we are allowed to dredge the approach channel until April 1, and the inner channel and basin until February 1. Tony sent a letter to the state asking to extend the allowable time for dredging the inner channel and basin. John Logan is conducting environmental sampling.
There was discussion on the use of bumpers on the floats vs. relying on rubrails on floats. Eric suggested Tony stock extra corner pieces for the rub rails.

Eric suggested DPW should repaint the arrow in parking lot entrance to indicate a right-hand turn is required when they reline the lot this spring, and possibly add other signage.

Reviewed the minutes from the January meeting we but did not have a quorum to vote on them as Eric wasn’t present for that meeting.

Adjourned shortly after 4 pm.
