In April 2019, Town meeting voted overwhelmingly to authorize the Select Board to acquire the 69.9-acre Walsh property. This was approved by voters in May 2019 as a Proposition 2 1/2 debt exclusion.

The use of the Property will be for general municipal purposes. The Select Board would like to see a combination of uses for the land including; open space, recreation, and housing.

The specific decisions about how the property will be used will be voted on at a future Town Meeting.

On June 27, 2019 a community forum was held to discuss “Wishes and Worries” for the property. Based on the feedback from this forum, a survey was developed to gather input into the formation of the committee and the structure of the community process it will lead.
The Board of Selectmen is hereby authorized and directed to

- create a committee, which
- shall include citizen representatives from diverse sectors of the community. The committee will
- lead a community wide process, beginning in June 2019,
- to engage a wide range of Truro residents in developing plans for the use of the property
- to be presented at a future town meeting for approval.

APPRAISAL
(2019)

Goal: To develop the market value of the subject properties as a whole.

- To develop the opinion of value of the subject property as a whole, the appraiser considered large vacant developable land throughout Barnstable County, and estimated the number of developable lots that could be created out of the whole property, then examined sales of single lots in Truro and then deducted the cost of development to arrive a net market value.

Appraiser also estimated the “as is” market value for each property.

- To develop the “as is” opinion, the appraiser examined sales of small residential lots in Truro for 2 bedroom, single family lots, houses, and condominiums in Truro that are restricted to 2 bedrooms.

The immediate neighborhood for the property includes the state highway, Cape Cod National Seashore, and Truro Central School. The Neighborhood is primarily residential with entrance to the parcel from route 6.

- Number of buildings: 8, plus 5 sheds and 3 garages.
- Market value: $3,700,000 (page 5)
Limits/ Constraints

- Zoning and Land Use Regulations: Property is located within the Residential (R) zone.
- In a Zone II Wellhead Protection Zone (page 69, Appraisal, 2019)

- Solid waste and demo that was safely accessible has been removed by the DPW
Pending Surveys/ Data

STRUCTURAL EVALUATION AND TOPOGRAPHY STUDY

• BSC Group conducting evaluation and study.
• Estimated completion date: Mid-March.
• Structural evaluations are complete and reports are being prepared. Field information to be processed and plan will be prepared.
Funding

• Currently: short-term borrowing until the use(s) of the property is determined.
• Cannot permanently bond the property until this use is determined as the use determines the interest rate.
• When the plan comes to Town Meeting, and the uses are approved, the Town can move forward with permanent bonding.
• Town Charter specifies that Town Meeting is the last Tuesday in April. The plan could be presented at a Special Town Meeting if necessary/ if there is one scheduled.
