Subject: Request for the extension of sidewalks on Route 6

Dear Mr. Weinstein and Ms. Roderick:

I am responding to your letter dated December 8, 2020 regarding a request to extend the sidewalk on the west side of Route 6 from the Truro Public Safety Building (just south of Parker Drive) to Shore Road.

At this time there are no projects programed in MassDOT's Capital Improvement Program for this portion of the Route 6 corridor. However, as part of MassDOT's Complete Streets Policy, when a future project for this roadway is scheduled, bicycle and pedestrian accommodations will be addressed in line with the policy.

Thank you for your advocacy of improved pedestrian accommodations within the Town of Truro. Please contact Pamela R. Haznar, P.E., at (857) 368-5050 with any questions regarding this matter.

Sincerely,

Mary-Joe Perry
District 5 Highway Director
