United States: +1 (571) 317-3116

Access Code: 861-493-733

This is a working session to develop a community-wide action plan to address climate change in Truro.

1. Confirm that we wish to compete this in July (weekly meetings, availability of CAC members, etc.).
2. Identify larger categories for input and examples: such as reducing use of fossil fuels, conserving land, solar/electricity, transportation, etc.; include closed-ended and open-ended questions.
3. Determine how to collect input: Break into smaller groups? Work as a single group? Have two people write down ideas? Something else?
4. Further development as time permits
