Open Meeting

- Approval of Minutes:
 - November 5, 2021
 - December 2, 2021
- Election of Officers
- Discussion with Carole Ridley, Ridley & Associates – Top Ten Stakeholders Identified
- Continue discussion around sample economic development plans and craft our vision
- Public Forum/Input plan
- Establish deliverables and timeline

Next Meeting Date: Thursday, January 13, 2021 at 9:30 am

Adjourn

Economic Development Committee

Meeting November 5, 2021-DRAFT

The minutes for the meeting of October 14, 2021, were approved with no amendments. The motion was made by Ms. Medoff and seconded by Ms. Roberts, the motion carried by a vote of 4-0-0

Members Present: Robert Panessiti, Acting Chair, Nancy Medoff, Kristen Roberts, Chris LaMarco
Others: Darrin Tangeman, Town Manager, Barbara Carboni, Town Planner, Kristen Reed Select Board liaison, Carol Ridley, Principal Ridley and Associates

Ms. Carboni introduced Carol Ridley, who presented her background. Mr. Panessiti then asked Ms. Ridley to explain her role and relationship with Tighe and Bond and her role in assisting the EDC and the LCPC.

Ms. Medoff asked Ms. Ridley as the EDC moves forward how does our work tie in with LCPC work and what the scope of her work how would it be in support of the EDC's efforts. Ms. Ridley presented a slide presentation to better explain her role. The presentation included a review of the components of strategy, feedback on proposed scope and timeline, review baseline information needs.

Mr. Tangeman asked if there were any requirements of the Cape Cod Commission for the plan? He further queried what is the decision making model going forward to make economic decisions on behalf of the town, who is the decision making body? He believes that should be addressed in the final work product. How is the EDC integrated with the LCPC?

Ms. Ridley responded that the EDC component is not required in an LCP by the Cape Cod Commission. We have latitude in what is contained in the report. Implementation could be a recommendation within the report for a framework, process or entity to carry the plan forward.

A timeline of Jan-Feb to collect data and get feedback from the community, including an economic summit in Feb-March to create a strategic document was discussed. Recommendations could include zoning, by-law modifications, resource commitment.

Mr. Panessiti and Ms. Roberts asked Ms. Ridley to consider some short and long term objectives as we move forward. Ms. Medoff express the need to rely on solid, relevant, credible information, removing subjectivity.

A discussion around the future of a standing EDC was discussed and Mr. Tangeman explained in his experience how that might work. Consideration for the framework of MGL would need to be

considered. Ms. Ridley discussed various models for the EDC's function in different communities.

Some baseline information concerning Truro was presented by Ms. Ridley and the need to be forward looking and identify what has changed as a result of COVID and Demographics. Topics included housing, infrastructure, transportation. Her role would be to gather information and support the Committee's efforts. Ms. Roberts questions some of the numbers such as year-round population. It was explained that these numbers came from the last census which was pre-COVID and didn't include the recent increase in residents that seems to be due to the pandemic. Ms. Carboni explained that the town was attempting to identify a profile of who is in the community through services being provided through COA and DPW to name a few.

Ms. Reed pointed out that Truro's response to the most recent census from which this data was derived was low and the data might not be accurate. Mr. Panessiti asked how we can look critically at feedback we are receiving from citizens to ensure we have a broad perspective. Ms. Roberts asked what the response to the survey has been, Mr. Tangeman thought the number was about 400, but seemed to lack specific parts of the community such as parents. Ms. Medoff asked how second vs. primary homeowners was defined by the cape cod commission; and the percentage of Truro respondents which was determined to be less than thirty percent.

Mr. Panessiti began discussion of the community forum and moving that forward along with surveying stakeholders and business owners in town. Ms. Ridley explained that November and December should be a time for data collection, creating a briefing paper/position statement and prepare for a community forum after Jan 1.

Ms. Medoff suggested we have several forums since season business owner might not be available during the winter. She also expressed concern the list of business in town might not be as complete as we would expect, and we should be prepared to refine the data. Ms. Roberts asked if we could how much is zoned for business and what is the occupancy rate. Ms. Reed remarked that there are many workers who may not be "obvious", and we should try and determine the workforce population. Ms. Ridley and Ms. Carboni will gather information for our next meeting.

A follow up discussion was had in response to Chris LaMarco's request that we all consider three things that would keep people in town and three that would attract them. Ideas included improving town sewer and water, mail service and garbage collection, affordable internet by introducing competition, free parks and beaches, utility assistance and tax credits, forestry planting trees and logging. Other thoughts included extending the season in recognition of people coming early and staying late, providing more bathroom facilities during the season "book ends", addressing the housing crisis and continuing to introduce tax incentives for families and businesses, improving transportation.

Mr. Tangeman remarked that we should also acknowledge the issues around the delivery of health care on the outer cape. He also asked that we include a housing needs component of our business owner interviews.

The next meeting was agreed Thursday, December 2, 9:30am.

Motion to adjourn by Kristen Roberts, seconded by Ms. Medoff, 3-0-0

The meeting was adjourned at 11:30am.

Action Items for December

- Preliminary Data Collection from various town Departments
- Vacancy rate for commercial zones.
- List of business in Truro separated by seasonal vs year-round
- Think about key informant interview, who should they be?

Economic Development Meeting December 2, 2021

Members Present: Robert Panessiti, Acting Chair, Nancy Medoff, Kristen Roberts, Chris LaMarco
Others: Kristen Reed, Select Board liaison, Darrin Tangeman, Town Manager, Barbara Carboni, Truro Town Planner, Carol Ridley, Ridley and Associates

The meeting was called to order at 9:35am.

The minutes for the meeting of November 5, 2021, were presented for consideration. The action steps of the minutes were reviewed, and the approval of the minutes was tabled to give members time to review for a vote to approve at the next meeting.

Carol Ridley presented a power point presentation regarding economic development strategy, data collection, timeline and the strategy itself and what an outline of the components should look like. Demographic data was presented, and it was acknowledged that some of it was not the most current collected in the 2020 census other than housing unit information. That data should be available in March of 2022. Ms. Medoff remarked that we need to be mindful of the shift that has occurred as we review 2019 data. Consideration of usage information from the town will also be gathered to help identify the needs of the community.

Mr. Panessiti questioned whether or not the people identifying as year-round residents are in name only or if they are actually in the community utilizing services. Mr. LaMarco stated that in his business he has seen an increase in usage and more seasonal clients have become year-round.

Ms. Carboni asked if there was a standard definition per the Cape Cod Commission of "seasonal"?

Mr. Tangeman asked if information had been shared with the committee from the Cape Cod Commission survey that identified second homeowners vs primary residents. Information was to be shared with Committee members following the meeting.

2020 census data was reviewed that showed that Truro has a very high number of vacant homes although we have seen a decrease of approximately 16% suggesting that the year-round population has increased; the total number of housing units was shown to have decreased by approximately 2.4%, 76 units in total. Employment and income data was shared including income need to buy or rent a home in Truro. This was 2019 American Community Survey five-year estimate. Data specific to Truro was contrasted with Barnstable County. More current data concerning level of employment and types of industry was presented. It noted that the number of businesses and the industries represented hasn't changed significantly since 2010, holding steady at approximately 115.

Ms. Medoff asked if we could combine data we have with the industry name and data presented? Also, if we should use this data from 2020 or the data we are collecting to verify. Mr. Panessiti thought it might make sense to combine lists and “clean up” the data. Mr. LaMarco commented that we really don’t need the data to be perfect since it always be somewhat flawed so how much time do we want to spend compiling it. He remarked that we understand what we have in Truro, we should focus on how do we get young families to move and live here.

Mr. Panessiti asked if there were many businesses that wouldn’t show up on the chamber list that were on the DBA list. Ms. Reed responded that there were enough to warrant researching those. Ms. Medoff shared that it won’t take too much effort to compile the data on a spreadsheet. She stated that we are making significant decisions for the community, and we need to be sure the integrity of the data is high. Ms. Medoff asked if it made sense to look at Truro specific data in the context of the outer cape as a whole. Ms. Ridley thought that made sense and is a great idea, the Committee agreed. Mr. Panessiti noted that if we are considering over one-hundred business in Truro, how many will we be able to actively be able to contact? We will be holding forums etc., but practically speaking time constraints will only allow us to reach out to a relatively small number so how much time do we want to spend compiling a list?

Ms. Reed asked if Ms. Roberts was aware if the campground owners were part of the Chamber. Her point being that there may be a high number of employers not represented in the Chamber. Ms. Medoff noted that we should not only look at the size of individual employers but also size of industry employment that would encompass many smaller employers.

Mr. Panessiti asked Ms. Ridley how in her experience she has engaged business owners as part of the process. She referred to the slide that detailed the project timeline. She asked the committee to consider who we would want to identify and here from as key informant/stakeholders in the community; what issues are we attempting to identify and answer? Discussion was had around how we define industry and prioritize our outreach to business owners. Ms. Medoff stated that it was important to have a member of the committee present when interviews are being held. Mr. Tangeman added that we should gather information concerning issues that business owners are having operating in the community and reach out to as many as possible through round tables that are industry specific. Discussion was had around public forum and focus groups, how many meetings, how many sectors, etc. Ms. Medoff reiterated that we don’t want to exclude anyone, and we should be as inclusive as possible. Ms. Roberts cautioned that we don’t spend too much time chasing people since there will be multiple opportunities for participation. Ms. Ridley asked if the Committee could put together a set of questions to frame the conversation for any focus groups. She would assist in this process.

Mr. Panessiti asked how do we move forward and actualize the conversations we are having today. Ms. Ridley responded that the Committee needs to identify the top ten business that we want to hear from as a starting point. She would provide some open-ended questions to be reviewed, once the interviews take place we then organize the forums expected in

February/March. Questions would include financing, employment, infrastructure issues, etc. Mr. Panessiti suggested we consider businesses with the highest attrition rate as well.

Action steps for the group

- Identify the top ten stakeholders/business we would like to interview
- Who from the committee wants to participate in the interviews
- Carole would provide questions for the interviews

Ms. Medoff stated that we need to level set and determine what our list looks like and agree on who to speak with. Mr LaMarco and Ms. Roberts stated that we should consider that anticipate we will be hearing the same issues repeatedly. Mr. Tangeman offered that in his opinion the people that speak up have issues and hopefully we can address them in a constructive manner. He recognized that the state of MA is a very difficult regulatory environment. Ms. Reed reminded the Committee that larger issues such as housing, connectivity and we should approach this work as part of Local Comprehensive Planning Committee (LCPC). That some people aren't as involved and don't necessarily understand the needs of the community and need to be educated through our outreach and communication.

It was determined that we should have a meeting before Christmas and determine our top ten business to survey from a list Barbara will distribute and complete items not addressed on this agenda.

The meeting was adjourned at 11:00am.

A motion was made by Ms. Medoff and seconded by Ms. Roberts passing 4-0-0

The next meeting will be held on Friday December 17th, at 11am.

RIDLEY & ASSOCIATES, INC.

TOWN OF TRURO ECONOMIC DEVELOPMENT STRATEGY

December 2, 2021

Today's Topics

1. Data - summary & sample key statistics
2. Proposed project timeline
3. Economic Development Strategy components

1. Data Summary

Demographic

- Year round population by racial category 2020 – 2010 (Census, P Wizotsky)
- HH type, marital status, veteran status, educational attainment, school enrollment, etc (ACS 2019 5yr estimates)
- HH by income bracket, pop by age and race, median income (CCC Key Econ Indicators, ACS 2019 5yr estimates)

Housing

- Housing units 2020 – 2010 (CCC compiled from 2020 Census)
- Housing units, # units and rooms in structure, age, value, mortgage, etc. (ACS 2019 5yr estimates)
- Median HH income versus income needed to buy or rent (CCC compiled from ACS and CIBR)
- Building permits issued 2000-2020 by housing unit type (UMASS Donahue Inst from US Census MCD)

Economic Indicators

- Monthly employment and wages by industry (CCC compiled from ACS 2019 5yr estimates, 2019 BLS, Labor Market)
- Employment, occupation, industry, commuting, etc. (ACS 2019 5yr estimates)
- Total labor force, total employment, total unemployment (MA DUA 2021)
- Number of establishments, total wages and average weekly wages by industry (MA DUA 2020)

Other Community Data Sources - TBD

- Post office boxes issued
- Transfer station permits issued
- Resident beach stickers issued
- Licensing data
- Home-based business listings & DBAs

Median household income vs. income needed to buy or rent

In all towns across Cape Cod, the median household income (pink line) falls short of the amount needed to afford a median priced home (spending 30% or less of income on housing costs).

Occupied housing stock: renter vs. owner

While the median gross rent is affordable to those earning the median household income in most towns, the proportion of renter-occupied housing units across Cape towns is smaller than the state, suggesting limited year-round rental options.

CAPE COD COMMISSION

Sources: American Community Survey, Cape Cod & Islands Association of Realtors, and Crane/EPR. Calculations assumed a 10% down payment and a 4.125% 30-year loan and used the NerdWallet mortgage calculator to estimate the monthly principal and interest payme..

2. Project Timeline

Phase 1: Data Collection and Planning (November 2021 – January 2022)

- Conduct data collection and analysis (demographic, economic, community infrastructure and other plans) with the EDC and summarize key findings.
- Conduct key informant interviews (10 remote interviews)
- Prepare an economic development briefing statement to serve as basis for planning a public Economic Development Summit and for inclusion in summit report.
- Develop an outline and logistics plan for Economic Development Summit.
- Publicize summit

Phase 2: Summit and Reporting (February – March 2022)

- Outreach to ensure participation in summit
- Facilitate Economic Development Summit with EDC. (remote or in person based on committee preference)
- Draft a summit report/strategies document.
- Seek public comment on the draft report/strategies document.
- Prepare final report/strategies document that reflects input from the EDC and public.
- Coordinate with Tighe & Bond to incorporate information into the LCP

3. ED Strategy Components

Truro's Economic Outlook

- People - Demographics
- Economy - Industry profile
- Environment – Considerations
- Infrastructure – Capital and Technological

Issues and Trends

- Increasing retirees, full time residents
- Remote work/home-based businesses
- Climate change and other environmental issues
- High cost of housing
- Infrastructure needs
- Technology improvements

Community Economic Development Vision (planning principles)

Goals and Priorities/Objectives

Action Plan (structured around Goals and Priorities/Objectives)

Implementation and Assessment

Start of Block: Block 1

Intro Thank you for your participation in the 2021 Cape Cod Second Homeowner Survey. The Cape Cod Commission is working with the Center for Public Opinion at UMass Lowell and the Donahue Institute at UMass Amherst to conduct this survey.

A second homeowner is someone who owns one or more homes that do not serve as their primary residence. The goal of this survey is to better understand how second homeowners are using their Cape Cod residences today and how they plan to use them in the future, and the impacts the pandemic may have had on second home utilization in the region.

Please take a few minutes to answer each question in the survey. **If you own multiple second homes on the Cape, please base your responses on the second home you most recently came to own.** For support with this survey, please email surveys@uml.edu.

Everyone who completes the survey can enter for a chance to win one of five \$100 Amazon gift cards from UMass Lowell.

Thank you for completing the survey.

Click the button below to advance and begin the survey.

If you have an access code on the postcard you received, please enter it below before clicking next.

Q1 Which of the following best describes you?

- New Cape Cod second homeowner (I did not own a second home on Cape Cod prior to April 1, 2020) (1)
- Established second homeowner (I owned a second home on Cape Cod prior to April 1, 2020) (2)
- I do not own a second home on Cape Cod (If you do not own a second home on Cape Cod, then no further questions are applicable. Thank you for your time!) (3)
- Other (please specify) (4) _____

End of Block: Block 2

Concept Plan for Truro Economic Development Strategy Focus Groups

Focus groups could be an effective alternative to holding one large economic development forum. These sessions would be advertised through town and media outlets and open to the public. To ensure participation of local businesses, it is recommended that the EDC employ direct outreach (a letter, email and follow up phone call) to businesses.

There are many potential ways to organize the focus groups, either by topic or type of business. The following list is proposed. Business owners/operators and other citizens are welcome to attend any/all sessions, however it would be likely that certain businesses would gravitate to the topic related to their business.

- Natural Resources, Environment, Fishing
- Construction Trades & Real Estate Development (include Walsh Property)
- Retail, Arts, Health & Wellness, Hospitality
- Businesses and Services (including home-based)

The format would be 90 minute facilitated sessions (could be shorter depending on size of group.) These could be held remotely and, in fact, doing so may boost participation. It is proposed that these be held in January, but time of day and location (if not remote) would need to be discussed. I would propose to facilitate each session.

Intro/Facts (10 min):

- Group introductions
- Purpose of the focus groups, economic development strategy
- Provide contextual information related to the local economy and focus group theme

Discussion Questions (subject to approx 15 min per question):

1) What attracted you/your business to Truro?
Has that changed? How?

2) If you could envision a future Truro that would be ideal for you/your business to meet its goals, what would that look like?

3) What issues or conditions might prevent that vision from becoming a reality (Issues of concern)? What are the biggest challenges facing you/your business?
[explore issues related to focus group theme]

4) What advantages or opportunities do you see to make that vision a reality?
What future conditions in Truro or the region would help your business achieve its goals? [explore issues related to focus group theme]

Wrap-up and Next Steps (10 min)

- Summarize key points of session
- Discuss process:
 - Draft vision and economic development strategy document
 - Public presentation of draft document for public comment
