The mission of the Local Comprehensive Planning Committee (LCPC) is to design and implement a planning process that is inclusive and utilizes various methods to gather information from the diversity of stakeholders in the Town of Truro. The process will be open, transparent and informed by the Values Statement contained in the Board of Selectmen's Annual Goals. The LCPC will utilize the process of planning as a means to generate community consensus on a host of issues that confront the Town such as affordable and community housing, land use, community sustainability and environmental protection. The LCPC process will be data driven. The LCPC will produce a final plan that is a living document that will be used to regularly inform the direction of Town administration and services as well as policy development by the Board of Selectmen and its appointed Boards, Committees and Commissions. The goal is to have a finalized Local Comprehensive Plan in 2023.

2022 LCPC updates & initiatives:

- In late 2021, the LCPC designed a survey for community input on the overall vision for the LCP, economic development, housing, and the Walsh property from

residents and non-residents. There were 611 total respondents: 58% year round residents, 35% part-time residents, and 9% Truro business owners.

- Through the spring and summer, the LCPC launched a postcard campaign asking town members to answer a series of questions about the future of Truro. These cards were sent home in backpacks at Truro Central School and placed at the Truro Library, Council on Aging, and Truro farmer's market.
- In September, Truro Central School grades completed a school-wide exercise highlighting their favorite parts of Truro. Pre-K - 2nd grade students were asked, "What's your favorite place in Truro?" and responded to the prompt visually. 3rd grade - 5th graders were asked "What's your favorite thing about Truro?" and used this question as a writing prompt.
- In October, the LCPC had a fantastic turnout for its visioning workshop on October 15, 2022. Over 70 people participated in the community forum, held in person at the Community Center, to help develop visions and goals for the town's future. Attendees were able to review input from Truro Central School students, in the form of posters highlighting what they love about the town.
- In December, the LCPC completed a draft vision statement and growth policy, and began outreach to other committees and town staff for feedback.
