

Truro Planning Board Agenda Remote Meeting Wednesday, June 8, 2022 – 5:00 pm www.truro-ma.gov

Open Meeting

This will be a remote public meeting. Citizens can view the meeting on Channel 18 in Truro and on the web on the "Truro TV Channel 18" button under "Helpful Links" on the homepage of the Town of Truro website (<u>www.truro-ma.gov</u>). Click on the green "Watch" button in the upper right corner of the page. Please note that there may be a slight delay (approx. 15-30 seconds) between the meeting and the television broadcast/live stream.

Citizens can join the meeting to listen and provide public comment by entering the meeting link; clicking on the Agenda's highlighted link; clicking on the meeting date in the Event Calendar; or by calling in toll free at <u>1-877-309-2073</u> and entering the access code <u>714-447-421#</u> when prompted. Citizens will be muted upon entering the meeting until the public comment portion of the hearing. If you are joining the meeting while watching the television broadcast/live stream, please lower or mute the volume on your computer or television during public comment so that you may be heard clearly. Citizens may also provide written comment via postal mail or by emailing Liz Sturdy, Planning Department Administrator, at <u>esturdy@truro-ma.gov</u>.

Meeting link: https://meet.goto.com/714447421

Public Comment Period

The Commonwealth's Open Meeting Law limits any discussion by members of the Board of an issue raised to whether that issue should be placed on a future agenda. Speakers are limited to no more than 5 minutes.

- 1. Planner Report
- 2. Chair Report

3. <u>Board Action/Review – Temporary Sign Permit Application</u>

Patricia Wheeler – Truro Concert Committee, requesting four (4) signs, 36" x 24", to be located at: (1) Snow's Park; (2) Route 6 and Standish Way; (3) Route 6 and North Pamet Road; (4) front of Town Rec Building-6A; and one (1) banner, $21" \times 96"$, to be located at the intersection of Route 6 and 6A. The signs and banner will be installed on June 30th and removed August 27th. Requesting 501(c)(3) Charitable Organization exemption.

ROWN OF TRUP

JUN 0 3 2022

RECEIVED

Public Hearings - Continued

2022-003/SPR – Benoit Allehaut and Elizabeth Allehaut for property located at 40 South Pamet Road (Atlas Map 51, Parcel 40, Registry of Deeds title reference: Book 33897, Page 73). Applicant seeks Residential Site Plan Review under §70 of the Truro Zoning Bylaw for a nonconforming (area) lot in the Seashore District. Applicants propose removal of existing additions, construction of new addition, and to relocate and reconstruct an existing shed into a two-story shed with attached carport. [*Original Material in 4/20/2022 packet*] {*No new material*}

2022-004/SPR – Outer Shore Nominee Trust, Rachel Kalin, Trustee for property located at 17 Coast Guard Road (Atlas Map 34, Parcel 3, Registry of Deeds title reference: Book 34387, Page 1). Applicant seeks Residential Site Plan Review under §70 of the Truro Zoning Bylaw for a lot in the Seashore District. Demolition of 5 of 6 pre-existing, non-conforming cottages (multiple dwellings on a lot) and associated structures; construction of a new one-story single-family dwelling with pool and landscaping; renovation of remaining cottage. [Original Material in 4/20/2022 packet; Material in 5/18/2022 packet] {New material included in this packet}

2022-005/SPR – Arthur Bosworth and Stephanie Rein, Out There Grown, LLC (High Dune Craft Cooperative) for property located at 21 and 23 Old Bridge Road (Atlas Map 50, Parcel 232, Registry of Deeds title reference: Book 377, Page 44). Applicant seeks a Residential Site Plan Review under §70 and §100 of the Truro Zoning Bylaw for a Recreational Marijuana Establishment (RME). [Original Material in 5/18/2022 packet] {No new material}

Public Comments

2022-006/SPR – Debra Hopkins, Pure Joy Farm, LLC (High Dune Craft Cooperative) for property located at 21 and 23 Old Bridge Road (Atlas Map 50, Parcel 232, Registry of Deeds title reference: Book 377, Page 44). Applicant seeks a Residential Site Plan Review under §70 and §100 of the Truro Zoning Bylaw for a Recreational Marijuana Establishment (RME). [*Original Material in 5/18/2022 packet*] {*No new material*}

DECISION OF THE HISTORICAL COMMISSION

| Address: | 40 South Pamet Road (Atlas Map 51 Parcel 40) |
|-------------------------------|--|
| Title Reference: | Barnstable County Registry of Deeds, Book 33897 Page 73 |
| Owners and Applicants: | Benoit & Elizabeth Allehaut |
| Hearing Date: | May 11, 2022 |
| Decision Date: | May 11, 2022 |
| Sitting: | Matthew J. Kiefer, Chair; Charles Steinman, Vice Chair; David Kirchner, Secretary; Amy Rolnick; Jim Summers |
| Absent: | Bart Mitchell |
| Recused: | Richard Larkin |
| Vote: | 5-0 |

This matter came before the Historical Commission pursuant to Chapter VI, Section 5 of the Truro General Bylaws, on an Application for Demolition referred by the Building Commissioner on March 15, 2022, with supplemental information forwarded on April 5, 2022, and a determination that the dwelling is significant under Section 6-2-1. The Commission held a public hearing on this matter on May 11, 2022.

The following materials were filed with this Board:

- Notice of Intent: Project Description 40 South Pamet Road, Truro, MA
- CAI-Technologies Map, 40 S Pamet FEMA Flood Map, dated March 27, 2022
- Cover Sheet, Allehaut Residence, 40 South Pamet Road, Truro, MA" prepared by C&J Katz Studio, dated January 7, 2022, Scale N/A. Sheet C

Eric Dray; Truro Historical Commission Public Hearing Notification for 40 South Pamet Road

Based on the hearing, and materials and testimony submitted in compliance with Section 6-5-1-1, the Commission makes the following findings:

- 1. The 2.7 acre property at 40 South Pamet Road is within the National Seashore Zoning District, and within an area pending review by the Massachusetts Historical Commission for eligibility as a National Register Historic District.
- 2. The subject property on the Pamet River contains the 1-1/2-story "Isaac Rich House," a portion of which was constructed circa 1830 and which has been documented by the Historic American Building Survey and identified in Truro's Comprehensive Survey of Historic Properties. An addition containing a kitchen was likely constructed in the late 19th century and altered in the 1990s, at which time an enclosed porch was also constructed. The property also contains an unusual shed with sloped walls akin to a mansard roof, in poor condition, located near the Pamet River. Both structures are located in an AE Flood Zone.
- 3. Plan referred to above, submitted to the Commission and presented at the hearing, show removal of the kitchen and porch additions to the house; demolition of the shed; construction of a new flat-roofed two-story addition; alteration of a front façade gable; and construction of a new garage with habitable space above and an attached carport, in a different location.
- 4. The Commission notes that the size and elevation of the proposed addition would be out of scale with the historic structure. The Commission further notes that the proposed changes to the hipped roof on the second floor of the front (west) façade to the left of the entrance portico to turn it into a gabled roof would alter a distinctive historic feature of the

house. Finally, the Commission notes that the shed could be of historic and architectural interest.

- 5. In light of the foregoing, the Commission finds that the proposed work would materially diminish the significance of the historic structure and its setting to Truro's heritage.
- 6. The applicants informed the Commission that they are seeking an exemption (from the Building Commissioner and/or the State Building Code Appeals Board) from the Building Code requirement of elevating the proposed addition, required due to location in AE Flood zone. The Commission supports the applicants' pursuit of an exemption from the requirement to elevate the addition, which would allow the applicants to lower the height of the proposed addition.
- 7. Due to the potential impacts on the historic structure and landscape, which will vary depending upon the availability of an exemption, the Commission finds that the structures (dwelling and shed) are preferably preserved and imposes a demolition delay. The Commission invites the applicant to return at time of their convenience to present amendments to the proposal addressing the following:
 - a) the scale of the proposed addition in relation to the existing historic structure, which includes the potential of constructing the addition at the same floor level as the house;
 - b) alternatives to altering the existing hipped roof to become a gabled roof on the front gable to the left of the entrance portico; and
 - c) possible salvage of the shed or its structural elements or its relocation; investigation of any further information regarding its history.
- 8. The demolition delay shall remain in effect unless the Commission votes to suspend the delay after the applicants return to the Commission to present a proposal responsive to the above three issues, consistent with Section 6-5-6 of Chapter VI of the General Bylaws.

Respectfully Submitted

Matthew J. Kieler, Chair

Good Afternoon Ben, I hope you are well. The answer to all 3 Questions is " NO ". None of these situations would qualify as " Habitable Space " in my opinion. Regards,

Richard Stevens Building Commissioner

From: Benjamin Zehnder <<u>bzehnder@zehnderllc.com</u>> Sent: Tuesday, May 31, 2022 12:06 PM To: Rich Stevens <<u>rstevens@truro-ma.gov</u>> Cc: Barbara Carboni <<u>bcarboni@truro-ma.gov</u>> Subject: 17 Coast Guard Road

Hi Rich:

17 Coast Guard Road is before the Planning Board and they need clarification on some points:

- 1. Do the "unfinished mechanical" portions of the basement count in National Seashore District Total Gross Floor Area?
- 2. Does a single story garage with no habitable space count?
- 3. Does the unheated accessory structure with storage, a changing room and a toilet count?

Here is the definition cut from the Zoning Bylaw for your review:

Seashore District Total Gross Floor Area. The aggregate gross floor area of the dwelling and accessory structures on a lot within the Seashore District, shall consist of the sum of the horizontal areas of the floor(s) of a building measured from the exterior faces of the exterior walls of the building, without deduction for hallways, stairs, closets, and thickness of walls, columns or other features used or intended to be used for living, sleeping, sanitation, cooking or eating purposes, excluding cellar and basement floor area, garage, porches, decks, attics, barns, sheds, greenhouses and agricultural buildings. For the purposes of computing floor area, any portion of the floor area measuring less than five feet from the finished floor to the finished ceiling shall not be included in the computation of floor area. (4/17)

Could you respond to me and to Barbara so that she can inform the Board?

Thanks as always, Ben

Dear Barbara Carboni and the Truro PLanning Board,

In advance of the Planning Board meeting later today, I write to reaffirm my opposition to the proposed marijuana farm and processing facility at the end of Old Bridge Road. My opposition to the proposal is based on the many reasons I stated in my earlier letter to you and on all the reasons that my neighbors have described in their emails to the Planning Board.

I very much hope, with all due respect, that the Planning Board will listen carefully and sympathetically to our very serious concerns that have not yet been addressed by those putting forth the proposal and reject it.

Thank you for your attention.

| Subject: | 21/23 OBR |

Dear Ms Carboni, Ms Sturdy, and the Truro Planning Board,

Please enter the following into the public record and make available in the packet regarding establishing a MRE at 21/23 Old Bridge Road:

I am writing to you regarding my opposition to the cannabis cultivation and manufacturing facility proposed for 21 and 23 Old Bridge Rd. We have owned the property at 12 Old Bridge Rd. for 35 years, and the property at 14 Old Bridge Rd. for around 30 years. Several others on the road have owned their properties for over 50 years. Although we are not year round residents of Truro, like the year round residents we all have a long standing commitment to the preservation of the historic nature of this beautiful town, and have contributed to its well-being through our taxes. Over the years our taxes have funded the building of a new school, a new police and fire station, the refurbishment of the Transfer Station, and the purchase of a number of vehicles for the public works department. One of our neighbors on the road has also donated land to the Truro Conservation Trust along Old Bridge Rd.

A cannabis cultivation and manufacturing facility sited in a residentially zoned area is inappropriate in our or any neighborhood in Truro, and will irrevocably and negatively change the character of our rural neighborhood surrounded by National Seashore and Truro Conservation Trust land, as well as our use and enjoyment of it. In the Truro bylaws, Section 20, 20.2 Residential District, it states "Residential Districts are intended to provide appropriate space for housing and associated uses for the people of the town. They should provide safety, good access and the opportunity to enjoy the peace and beauty of the Town." This facility will compromise our safety and our access, as well as substantially decrease our opportunity to enjoy the peace and beauty of the Town. In addition, the applicant is planning on constructing on a one and one half acre property two 60 by 60 foot greenhouses, which are the size of two, 3,600 square foot homes, as well as add two trailers to the site. All of this is in addition to the existing home and other structures on the site. This massing of buildings on a lot this size in a residential neighborhood is not in keeping with the preservation of the special character of Truro.

The applicant has been very vague on a number of issues.

Some of my concerns include:

Odor

Cannabis is nicknamed "skunk weed" because it stinks, particularly at certain stages of its growth cycle. Massachusetts law stipulates that cultivators are required to meet an environmental Air Pollution Control regulation which includes the **prevention** of odor. It has been reported that the odor of cultivated cannabis can travel up to 1,500 yards, which is more than 4/5 of a mile. Attorney Fee, the applicant's lawyer, suggests that they may consider spreading "cedar chips" around the outdoor plants if there were complaints about the smell. There is no data that suggests that the use of cedar chips would help to mitigate the odor of cannabis. In addition, they suggest that the exhaust fans for the greenhouses would point their exhaust to the Northeast to take advantage of the predominant Southwest winds, so that the odor would leave quickly and disperse over National Seashore land. In fact, our winds are changeable, and come from primarily the NE, SW, NW, SE as well as all other directions less frequently. The applicant has no plan for odor prevention or mitigation other than suggesting the Truro Board of Health considers alternatives after the complaints begin. This is not an acceptable plan to mitigate the noxious odor that will emanate from these plants.

Noise

The applicant has stated that two, 60 by 60 foot greenhouses will be constructed to cultivate cannabis on the property. Within those greenhouses will be large industrial fans, blowing constantly. What decibel level of noise will emanate from those fans, in an area that is currently exceptionally quiet? How does the applicant propose to ensure that the noise will not impede on the neighbors use and enjoyment of their property?

Outdoor lighting

This night sky is currently unsullied by outdoor lights of any kind. The applicant is proposing a lit security fence around the perimeter of the property. How are they intending to conform to the Truro regulations regarding outdoor lighting, and ensure that said lighting does not impede upon the neighbors?

Old Bridge Rd.

Safety and Traffic

Old Bridge Rd. is a 10 foot wide pot holed dirt track private way. It was never intended to be utilized for commercial purposes, nor is it designed to do so. The road has a number of blind spots, including one on a hill. There are only two places along the road where one vehicle can pull aside so another vehicle can pass- otherwise one vehicle needs to back up into one of those two places, or more frequently into one of the private driveways. This occurs on a daily basis. The road cannot accommodate pedestrians or bicyclists and a vehicle along many parts of it, necessitating that pedestrian or bicyclist step up onto the shrubbery alongside of the road. The inevitable increase in traffic directly related to the cannabis facility of both cars and commercial vehicles is a safety and nuisance issue which the applicant has not addressed. How many employees are expected? Deliveries? Products needing to be transported in or out? What is the applicants plan for mitigating the hastened deterioration of the road due to the increased traffic generated by their facility? How is the applicant proposing to ensure that the traffic, including commercial vehicles, coming to and from their facility, does not trespass onto the private driveways along the road?

Private Rd

Old Bridge Rd is a private road which is maintained by the owners of property along it. We are also responsible for the maintenance of the telephone poles and wires. As a group, the owners of properties along Old Bridge Rd are currently investigating our titles, Massachusetts law in terms of overburdening of an easement, the use of a private way for commercial purposes and our rights as part owners of a private road. We do not believe that Old Bridge Rd is appropriate access for a cannabis cultivation and manufacturing enterprise.

The siting of such an enterprise in a residentially zoned area sets a terrible precedent that affects everyone living in a zoned residential area in the town of Truro.I have no issue with the cultivation of cannabis or the manufacture of products related to it, but as commercial enterprise it must be located in an area that is commercially zoned, not allowed to operate in a quiet residential area, permanently and negatively altering its nature. I urge you to deny the request for a special permit at 21/23 Old Bridge Rd.

Thank you for your consideration.

Sincerely,

Diane Hirshberg

Dear Ms. Carboni and the Truro Planning Board:

We write to express, once again, our dismay about the planned marijuana growing and manufacturing facility at the end of Old Bridge Road in Truro.

All the concerns that we enumerated in our letter of 26 May still pertain. We continue to feel strongly about compromised water use; negative environmental impact; chemical runoff; odor; and noise and increased traffic. These reservations have all been confirmed by what we have learned by reading more about cannabis grow and manufacturing plants in residential areas throughout the country, from California to Colorado and in our own state of Massachusetts.

Residential communities have learned too late and to their dismay that such facilities are water-intensive, thus compromising water supplies and draining water tables; that they generate deleterious environmental effects on native plants and wildlife; they emit noxious and toxic chemicals from their use of fertilizers, pesticides, and, in particular, from the strong chemicals used in the process of THC extraction. These facilities generate noxious odors during growing, cultivation, and production, which must be reduced by carbon filters; they generate constant noise from the activity of ventilating fans; and there is noise and risk to pedestrians and pets from increased traffic on proximate roads.

A description of the potential problems created by marijuana facilities in residential areas can be found In this report prepared by this team of experts who evaluate the nuisance and risk of marijuana facilities:

https://www.robsonforensic.com/articles/codes-standards-hazards-marijuana-grow-facility-expert-witness

We urge you to read this report carefully.

As we studied further, we became cognizant of perhaps the most dangerous feature of all: the risk of explosion and/ or fire, which could spread quickly in Truro's brisk winds within our fragile and flammable surroundings of pitch pines and low brush.

Such fires are now known risks of marijuana factories; there are too many instances to enumerate. Any planned facility would need to be constructed according to the highest fire safety standards and inspected by industry experts before opening and several times per year going forward. But, even under the best of conditions, accidents can and do happen. An "accidental" fire at 23 Old Bridge Road would spread quickly throughout the neighborhood, endangering dozens of valuable residential homes and their residents and acres of woodland properties.

The prospect of such certain nuisances and potential risks within a residential neighborhood in Truro makes the planned facility highly inadvisable. We urge you to deny approval to the construction of a marijuana grow facility at 23 Old Bridge Road. There are other far more appropriate locations within commercial zones in Truro.

Sincerely,

Roberta Krueger and Thomas Bass

Dear Ms. Carboni and Truro Planning Board,

We are writing in advance of the continuation meeting regarding the Marijuana facility on Old Bridge Road. We continue to have serious concerns, including new concerns. The Bylaws specifically require the Planning Board to consider negative impacts on abutters, neighbors, and the community. See Bylaw 70.1.A. The application currently submitted has no specifics on the size/amounts, visual screening (other than claiming use of neighbor's trees), odor mitigation, lighting mitigation, security for surrounding area, and road adequacy/maintenance, all of which directly affect neighbors in various ways.

The applicants still have not directly responded to any of our concerns. The only indirect response, included *in the revised* application, was a complete dismissal of our standing as abutters. We are very surprised that nobody on the Board responded to our request that the applicants produce information and documents on what investigation they undertook regarding odor mitigation. The HCA includes a specific commitment by the applicants to create no odor nuisance to their neighbors. See HCA 12 and Bylaw 100.6.E. We still request that the applicants produce those files, so we know what efforts they have taken to protect their neighbors from nuisance from offensive odors.

Several neighbors have presented concerns to the Planning Board, none of which have been meaningfully addressed by the applicant. We ask, as a minimum, that the Board investigate our concerns before approving the application. The Bylaws provide the Board with the authority to hire experts to analyze the plan to determine the appropriateness of the Old Bridge Road site. See Bylaw 70.4.B.

The applicants have not provided consistent information on what activities will take place. The applicants state that they are entitled to of cultivate, obtain, manufacture, process, package and brand cannabis, but that they do not intend to do all of that. In March, the applicants stated that they would not import any product. They would process, manufacture, etc. only from what they grew. In May, the applicant stated that they would be importing product from other sources to manufacture products like edibles and lotions, but they would not be doing extraction. See Recordings. Do the applicants know what they are doing and not doing?

The applicants have not confirmed that the property is eligible for an RME. We do not have evidence that the two lots 21 and 23 Old Bridge Road have common ownership, a requirement of using two lots to make a parcel. See Bylaw 100.2.K.

We ask that the Planning Board deny approval for this application. It is incomplete, vague, and disregards the negative impacts on abutters, neighbors, and the community.

Thank you, John and Patricia Wilson Bylaws Section 70.1.A

The purpose of Site Plan Review for Commercial Development and for Residential Development is to protect the health, safety, convenience and general welfare of the inhabitants of the Town. It provides for a review of plans for uses and structures which may have significant impacts, both within the site and in relation to adjacent properties and streets; including the potential impact on public services and infrastructure; pedestrian and vehicular traffic; significant environmental and historic resources; abutting properties; and community character and ambiance.

HCA Section 12

The Co-op and its Members shall ensure that odor from the operations do not constitute a nuisance to surrounding properties.

Bylaws Section 100.6.E

No odor from marijuana cultivation, processing, manufacturing or retail may be noxious or cause a nuisance or danger to public health or impair public comfort and convenience.

Bylaws Section 70.4.B

The Planning Board shall have the authority to hire at the applicant's expense necessary professional services reasonably required to review and adequately analyze the contents of any site plan or related impact study requested by the Board.

Bylaws Section 100.2.K

Parcel shall mean the location on which an RME or MMTC proposes to locate and may consist of multiple lots, as long as such lots are contiguous or adjacent, and are under common ownership. Each parcel shall be subject to Site Plan Review.

Elizabeth Sturdy

From: Sent: To: Subject: James Hirshberg <james.hirshberg@gmail.com> Tuesday, June 7, 2022 9:57 AM Elizabeth Sturdy Re: 21/23 Old Bridge Road Packet

Dear Ms Sturdy, Ms Carboni, and the Truro Planning Board.

You probably already know this, but I want to reiterate for the public record:

Under the Massachusetts "recreational marijuana law," General Laws, Chapter 94G, Sections 1, et. seq., those seeking to operate a Marijuana Retail Establishment ("MRE") must follow a number of steps in the application process. The first step requires "local" approval by the municipality in which the business will operate, including entering into a Host Community Agreement ("HCA") with the municipality, setting forth the conditions under which the MRE can operate. Under the state's law, the provisions of an HCA may—and invariably do—include an annual fee to cover anticipated or actual costs to the municipality, which are reasonably related to the MRE's operations (a "community impact fee"), and capped at 3% of the MRE's gross sales for a period of 5 years.1 The law requires that a municipality document the actual costs incurred as a result of the MRE operating there; that documentation is a public record.

In short, the Town of Truro, at best, may be reimbursed for some of its expenses due to the MRE for ONLY five years. In your consideration to approve or reject this project, I think it important to note the likely large costs to the voters and taxpayers fo Truro.

Respectfully,

James Hirshberg

Elizabeth Sturdy

From: Sent: To: Subject: James Hirshberg <james.hirshberg@gmail.com> Tuesday, June 7, 2022 4:07 AM Barbara Carboni; Elizabeth Sturdy 21/23 Old Bridge Road Packet

June 7, 2022

Dear Ms. Sturdy, Ms. Carboni, and members of the Truro Planning Board,

I have reviewed the most recent information provided by Mr. Fee regarding the RME application for 21/23 Old Bridge Road (OBR).

The most glaring omission is that the application does not address the vastly increased traffic that will unquestionably occur as a result of the commercial growing and manufacturing facility at the end of the road (1/3 mile from Holsbery).

OBR is a private way. The Town of Truro does not provide maintenance of the road. In its current form, the dirt track is as narrow as 8 feet from overhanging limb to limb. UPS trucks routinely break off overhanging limbs. When an exiting vehicle meets up with an entering vehicle, one vehicle must back up as far as necessary to reach a widened area in the road (there are 2) or back into a neighbors driveway. It is hilly with a blind spot descending past 8 OBR. There are many reports of aggressive driving, including the use of verbal and digital profanity, when residents have encountered non-resident drivers on OBR.

There is not enough clearance for a walker or bicyclist to even stand aside for a vehicle to pass. This is always resolved by the pedestrian climbing up the berm which is steep due to erosion.

OBR is without question an UNSAFE and INAPPROPRIATE sole access for a commercial enterprise of any nature.

I implore the town to direct the applicant to resolve this issue. Reasonable possibilities include creating a 1/3 mile asphalt 40' roadway, perhaps the Town would pay for this. Unfortunately all of the privately owned telephone poles which have electrical, cable and telephone lines would have to be moved underground. The utilities have indicated they will not pay for this, but perhaps if it was a town road?

Another possibility is the applicant could negotiate and pay for easements through abutting properties to Route 6. Obviously a much safer and efficient choice than increasing traffic not only on OBR, but on non-conforming Holsbery and Depot Roads as well.

We have begun examining deeds regarding the establishment of the private way recently named OBR. Unfortunately it is a costly process. Each and every deed from the time the land was subdivided and easements were granted in our deeds must be examined. However, it is clear that OBR and the easements provided to residents were intended for RESIDENTIAL use.

Our attorneys feel that it is settled law in the Comm of MA that this increased traffic would constitute an "OVERBURDEN OF EASEMENT" as the intention of the easement was solely for residential use.

The consortium of abutters and neighbors with whom we have spoken all agree to pursue this avenue to stop the creation of a RME manufacturing facility.

The Planning Board certainly always acts in my knowledge to preserve the historic nature of Truro. The creation of this facility in a quiet, pristine, residential neighborhood on an ancient farming trail would be inconsistent with that. Thanks for your consideration.

Sincerely,

Diane and James Hirshberg 14 Old Bridge Road

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear Town of Truro Planning Board,

Thank you for providing the opportunity for residents of the Old Bridge Road community to express concerns around the proposal for 21 and 23 Old Bridge Road.

I appreciate the entrepreneurial spirit of the applicant; the cannabis market is a booming industry that presents an exciting and lucrative business opportunity. However, as this is the first proposal of its kind, I ask the Board to heavily consider the business model that is being presented as part of the approval process. I choose these words intentionally because this agricultural venture is far more than a farm-to-table enterprise. Your decision with regards to the use of 21 and 23 Old Bridge Road will establish precedent that govern future industrial enterprises seeking approval to expand into the pristine residential zones of Truro. The approval of this proposal and creation of that precedent will most certainly result in fracturing the lines that delineate residential from commercial.

Careful consideration must be paid to a detailed business plan that should be provided by the applicant. Such a model should include and not be limited to: Financials that include forecasted total revenue, cost of revenue (modeled out by material and labor), gross income, total operating expenses, and an understanding of their fixed and variable cost structure. Further, the business proposal should include a 1-, 3- and 5-year time plan (this is the norm when seeking seed funding or venture capital). When you consider the proposal, you should consider the future of this business, not only the immediate costs and plans. The purpose of a business is to make money and expand. The applicant must be able to demonstrate their understanding of anticipated circumstances that would require more capital and, potentially, further growth. Such a detailed model would allow the board to review the applicants ability to stay within the bounds (and adhere to the regulations) of the original proposal. Having reviewed the proposal, I have serious concerns about the applicants ability to mitigate the damaging effects of traffic, pollutants (light and smell), and noise (fans running round the clock) on the surrounding neighborhood. Agreeing to the formation of this co-op requires an agreement to whatever this co-op may become. When you review the proposal, consider areas that reveal the intention of the applicant for this proposed co-op to expand beyond the bounds that are agreed upon in its formation. As the board considers this request, I ask that the board review whether or not they have a clear understanding of the business being proposed. When considering this request please ask yourself if the applicant made their long-term business plan clear? What happens when the applicant needs more room to grow? Are there clear and concrete governances that are in place to hold this business to the original bounds of the agreement? The applicants attorney has already highlighted the clear intent to dismiss anyone whose concerns of those not deemed "local" or "year-round".

Examining the opportunity space of cannabis (growth to distribution), we know there is a wealth of opportunity for rapid growth, particularly for companies that can control each level of the supply chain. An article published in *The Provincetown Independent* states, "Local tax receipts show the harvest: \$10 million in total sales has produced \$610,000 in new revenue for the town."¹ Total market valuation in Massachusetts alone has exceeded \$1 billion this year. "According to the Marijuana Policy Project...This is notable since total sales in 2020 were \$696 million."² This is a rapid growth industry. The seeds planted today forecast a scaled operation in the future; "The sales prove that the demand is here in Massachusetts for legal marijuana, but meeting that demand has been a long road. There also is a limit on how much product consumers can purchase at legal establishments, due to the lack of supply."³

¹*Provincetown Independent*. September 1, 2021. <u>https://provincetownindependent.org/news/2021/09/01/pot-sales-of-10m-net-610k-for-ptown/</u>

Given these rough numbers, it is easy to see incentives that are in place to growth of the business beyond the bounds of the proposal presented to the Board. In it's current formation it is equally important to highlight that the applicants business model assumes the approval of conjoined lots as well as numerous other vague proposals that infer how they will adhere to the guidelines set forth in the town bylaws listed below:

Criteria of 70.4 D (Residential Site Plan review)

2. Building design shall be consistent with the prevailing character and scale of the building and structures in the neighborhood through the use of appropriate scale, massing, building materials, screening, lighting and other architectural techniques.

3. Lighting. Lighting shall be consistent with Chapter IV, Section 6 of the General Bylaws of the Town of Truro. There shall be protection of adjacent properties and the night sky from intrusive lighting.

The requests previously outlined are part of a basic review of any seed funding venture and inability to produce and articulate such modeling raises serious concerns about the applicant's ability to adhere to early proposed regulations or mitigate the impact that their LLC will have on the surrounding residential neighborhoods. I thank you for your careful consideration of this letter and the concerns set forth.

Sincerely, Scott Duddy 12 Old Bridge Road

TRURO PLANNING BOARD

Site Visit Minutes April 19, 2022

40 South Pamet Road

Attending: Planning Board Members – Anne Greenbaum, Bruce Boleyn, Jack Riemer, Paul Kiernan, Rich Roberts, Steve Sollog; Attorney Ben Zehnder

Walk around included existing residence and shed identified as to be torn down.

Much of property is in flood plain.

Question of whether building will be required to be raised.

New shed will be 2 stories, bottom floor for storage and 2^{nd} floor to include "habitable space" – 1 room + sink and toilet.

Also before Conservation Commission, Historical Commission.

17 Coast Guard Road

Attending: Planning Board Members – Anne Greenbaum, Bruce Boleyn, Jack Riemer, Paul Kiernan, Rich Roberts, Steve Sollog; Town Planner & Land Use Counsel Barbara Carboni; Attorney Ben Zehnder

Walk around property – Attorney Zehnder identified the 1 structure that will not be torn down. The intent is for it to become structure for storage, changing room, shower/bathroom.

Neighbor to North had talked with Attorney Zehnder with concern about location/height. The proposed residence is directly in sightline from his home to Highland Light.

Additional information/concerns identified: Limit of Work, total square footage.

Respectfully submitted,

Anne Greenbaum, Chair

TRURO PLANNING BOARD

Meeting/Work session May 25, 2022

Attending: Anne Greenbaum – Chair; Rich Roberts – Vice Chair; Jack Riemer – Clerk; Paul Kiernan, Caitlin Townsend – members Barbara Carboni – Town Planner/Land Use Counsel

Bruce Boleyn arrived 4:40 Ellery Althaus – member arrived 5 pm.

Board Action/Review – Temporary Sign Permit Application

Susan Howe – **Historical Society, Highland House Museum,** requesting one (1) sign, 36" x 48", to be located at the intersection of Route 6 and South Highland Road. The sign will be installed on June 1st and removed October 1st. Requesting 501(c)(3) Charitable Organization exemption.

Motion to approve the sign as requested and to approve the exemption from the fee. Approved 5-0

Planner Report

Several upcoming events

- June 16 5:30 pm Economic Development Committee Summit Summary of Findings in person at the Library outside
- June 21 6 pm Housing Authority Input for Housing Production Plan Virtual Meeting
- Walsh Committee RFP for master planner approved by Select Board, will go out very soon

Discussion of Ways to Improve Planning Board Procedures/Processes

Regulatory

1. Temporary Sign Permit

Add to form -

- Maximum sign size
- Maximum duration

2. Discussion of policy of hearings going across 2 meetings. Decided to continue as we have been and not implement formal policy that all hearings will be continued to a second meeting.

3. Sites visits - Discussion of whether to continue group visits or do individually

- Pros to group visit ask applicant or their representative questions, clarify information
- Issues Board members getting information before general public

Respectfully Submitted,

Anne Greenbaum

Next Meeting
