## **Pavement Management Plan Inspections**

The Town of Truro's engineering consultant, GHD Inc. (GHD), will have representatives in the field, wearing high-visibility field attire, during the upcoming weeks to conduct visual inspections of the town-owned roadways. The representatives in the field will be driving a white Volkswagen Jetta and/or a black GMC Yukon.

During the week of June 28<sup>th</sup>, GHD plans to be inspecting the following roads:

- South Highland Road
- Old County Road
- Shore Road
- Truro Center Road
- Meetinghouse Road
- Standish Way

Work will involve the representative driving the length of the road, parking on the side of the road temporarily, inspecting sections of the roadway, and returning to their car to go to the next location. The inspections will be weather dependent and shall not disrupt traffic.

Thank you for your patience and cooperation during this work.
