

TOWN OF TRURO

Water Resource Oversight Committee

P.O. Box 2030, Truro, MA 02666

Minutes of the meeting of October 30, 2012, held at 4:00 PM in the Truro Town Hall

Present were members Shannon Corea, Kevin Kuechler (Chair), Amanda Reed, Peter Romanelli and Bill Worthington. Mark Peters was absent.

Also present were Charleen Greenhalgh, Assistant Town Administrator/Planner and Pat Pajaron, Health and Conservation Agent.

Greenhalgh reported that the Selectmen were very positive about the presentation that Blake Martin had made on October 2nd. She is ready to work with Martin on the build-out analysis,

Kuechler raised the issue of what further groundwater analysis – fourth year – remains to be done at East Harbor and the Pamet Rivers. Greenhalgh emphasized the requirement that any further work must continue under the auspices of UMass Dartmouth.

There was a discussion of the eventual determination of the flow direction of the aquifer under Beach Point. Greenhalgh spoke about some five monitoring wells which had been put in by the CC Commission and/or the Seashore. She will plan to ask John Portnoy about them.

Round 5 of the Voluntary Nitrate Sampling program will be mailed in the spring; perhaps in April, 2013. It will cover the Year 2 residences; Reed and Worthington are to review the selected addresses. Reed will review the contents and wording of the letter to be enclosed.

Pajaron noted that she will sign for payment an invoice from Weston & Sampson for \$4,752.32 for CWMP work.

The next meetings of the Committee will be held at 4:00 on Thursday December 6 and at 3:00 on Tuesday December 18th. These will be work sessions in preparation for an early January presentation by Martin to the Board of Selectmen, with the intention of having an article ready for the Annual Town Meeting.

Respectfully submitted

William Worthington
